

**American Ambulance Association presents the
ePCR Audio Conference Series
March 11th & March 18th**

This two part series will focus on the decisions and areas to consider when evaluating the implementation of an electronic patient care record within your organization. The first session will provide an overview of how to determine what is the best solution for your organization and how you anticipate using the data from the chosen system. Part II of the series will be a panel discussion from industry insiders who have implemented various systems within their respective operations and their successes and challenges encountered.
